

Flexible endoscope
Repair

New service launching - June 2017

STERIS Instrument Management Services is the world's largest provider of surgical device repair services and part of a global end-to-end infection control and theatres solution.

From April 2017 we will add to our range of repairs services to include flexible endoscope repair. Our capabilities and expertise combined with our technology means that we are able to perform individual repairs through to complete refurbishments of all the major flexible endoscope manufacturers including:

SURGICAL DEVICE REPAIR

SURGICAL INSTRUMENT REPAIR

SURGICAL INSTRUMENT STERILISATION AND DECONTAMINATION

SURGICAL INSTRUMENT SALES AND HEALTH CONSUMABLES

Our repairs service typically saves Customers up to 50% on the alternative cost of Originating Equipment Manufacturers.

Have you considered an alternative to the Originating Equipment Manufacturer?

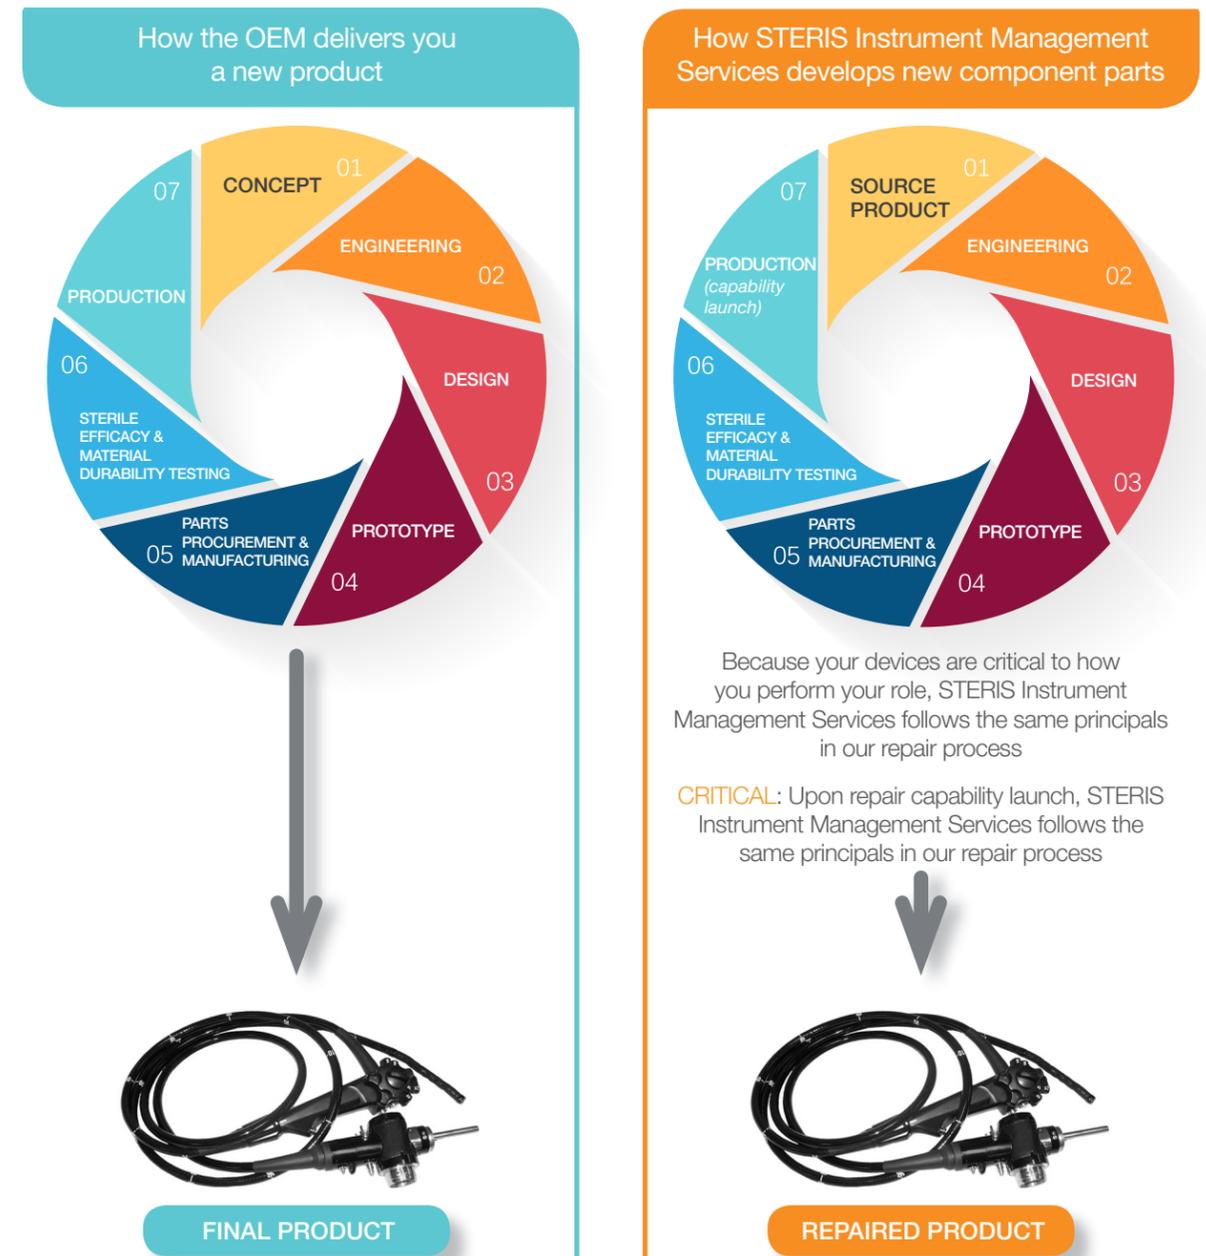

As a world-class leader in the healthcare industry we employ dedicated engineering, manufacturing and repair technicians. Our infrastructure and advanced capabilities ensure that all devices are returned to the Customer as their original specification would dictate, allowing your clinical teams to deliver the best in patient care whilst reducing departmental asset maintenance costs

Saving 50%

At STERIS Instrument Management Services we typically save our Customers 50% when compared to OEM repair costs.

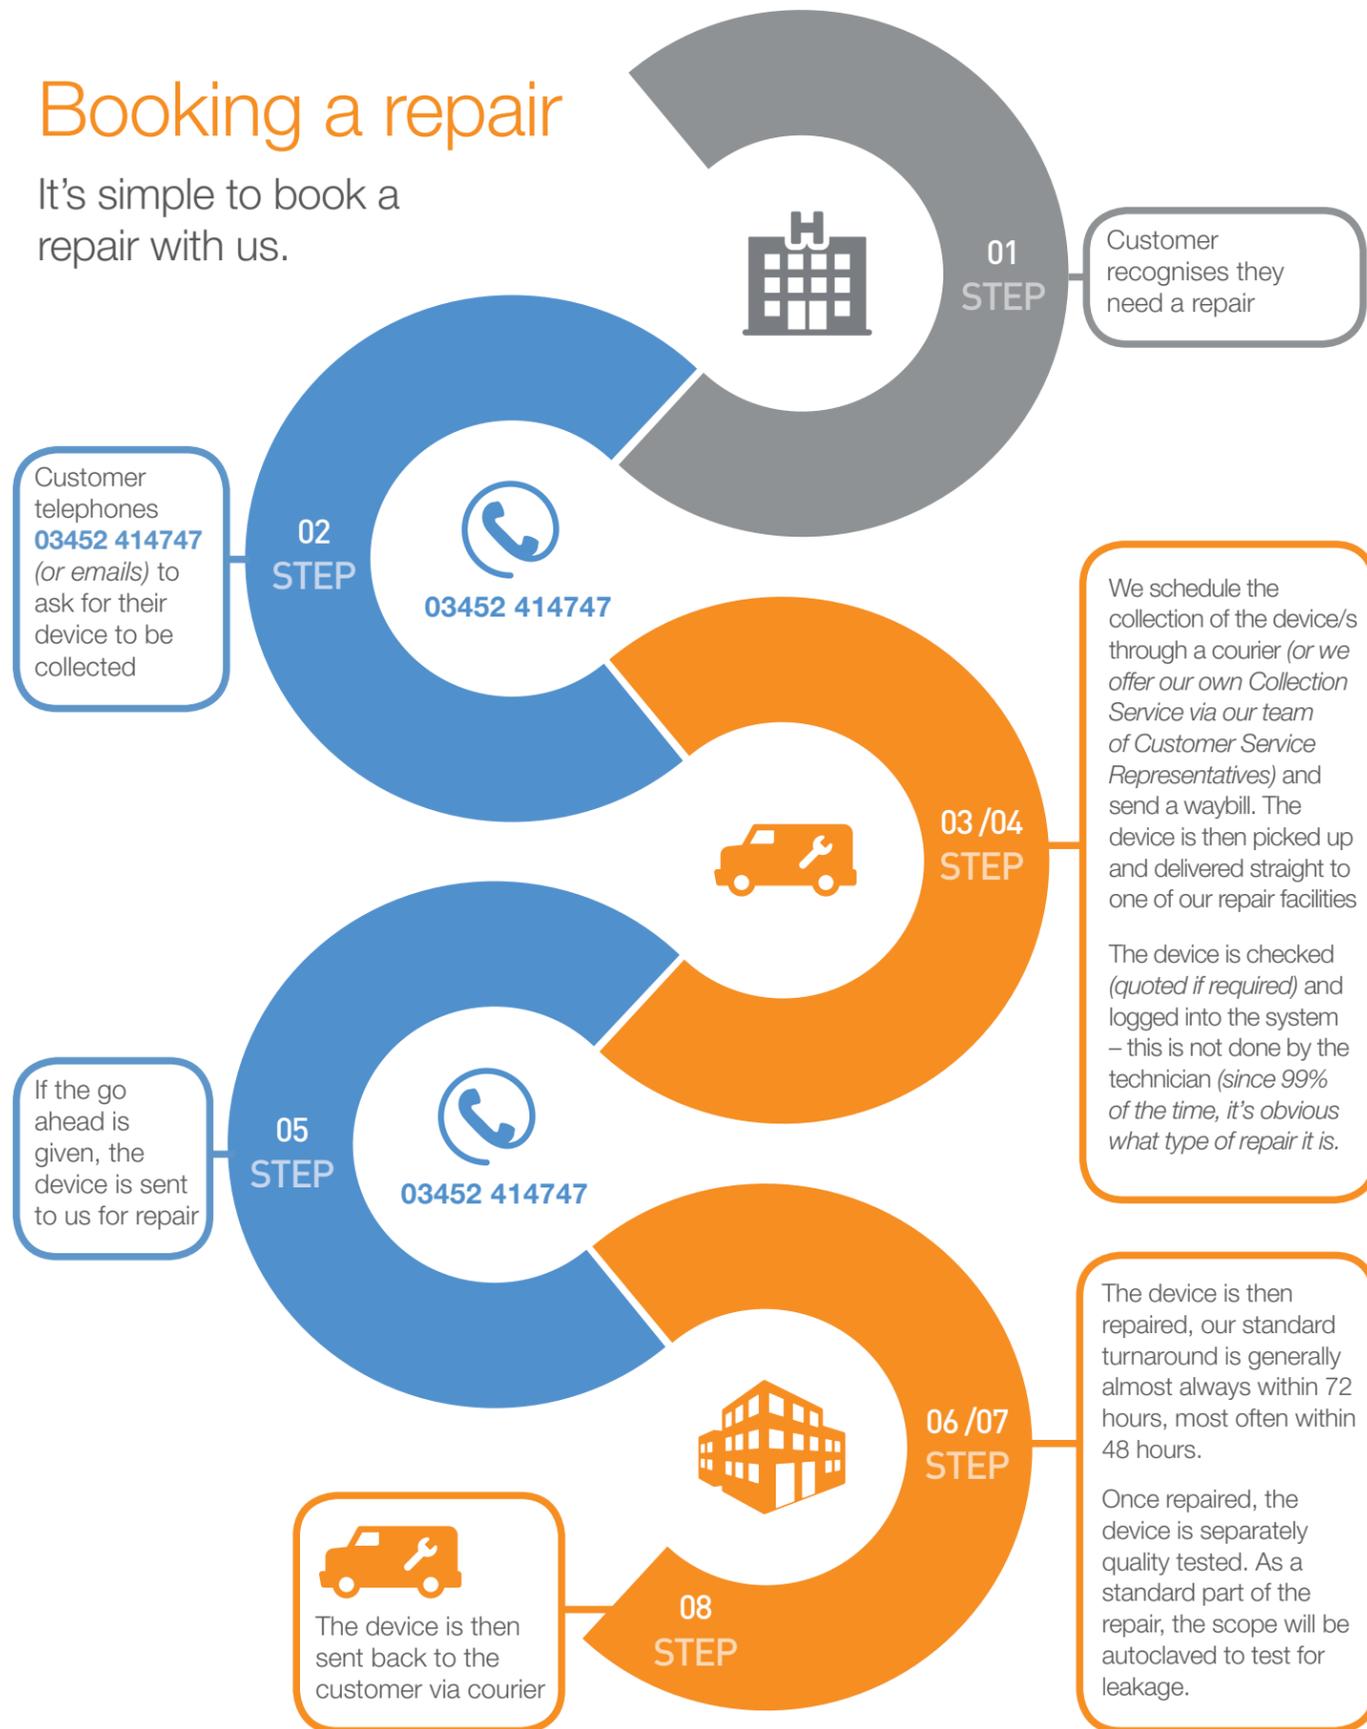

Why STERIS Instrument Management Services for your flexible endoscope repairs?

Here is an overview of an OEM's research and development process in comparison with our own repair methodology:

Booking a repair

It's simple to book a repair with us.

A World class repair service

At STERIS Instrument Management Services we believe our Customers should be provided with an alternative to instrument repair undertaken by the device manufacturer, whilst offering competitive pricing.

Our World-class repair service offers Customers superior quality parts and a flexible endoscope loan service all delivered from our specialist repair centres with the added reassurance that all repairs are certified to ISO13485 standards with a range of warranties available.

To find out more

The customer experience we provide to our Customers is as important to us as it is to you, that why at STERIS Instrument Management Services we take a different approach to business, we believe in partnership models that work for both of us.

There are a number of ways in which you can find out more about working with the leaders in surgical device management.
